

Guidelines:

Burn Barrels / Braziers / Enclosed fires

- Must be placed at least 7 metres from any type of structure, decor, tent. (UNLESS it has been approved by a member of FAST to be closer)
- Must be placed at least 10 metres from any forested area
- Must be 10cm raised off the ground (UNLESS it has been approved by a member of FAST to be closer)
- Must be 10 metres from any fuel dumps (generator fuel, fire spinning fuel etc)
- Must always be supervised by a member of the relevant Theme Camp/Art Installation
- MUST have fire safety equipment within sight and reachable in an emergency, this includes:
 - Water bucket
 - Fire extinguisher
 - Fire blanket
- Enclosed fires with a chimney need a spark arrester (thin wire mesh in the chimney)
- Any fireplaces inside tents must be inside a tent with fire resistant material (thick heavy canvas for example) and ways for smoke to escape must be present
- If there are falling embers, use a metal tray or similar for catchment
